EXPERIENCE

Alumni Ventures

May 2026 – Present

Investment Analyst Intern -- Deep Tech Fund

- Sourced Andrenam post-Series A on a defense supply-chain stabilization and autonomy thesis, securing the firm's Series B allocation
- Engineered an AI-native sourcing tool to accelerate investment team deal discovery, capturing signals from alternate channels such as X
- Built an interactive defense market map, segmenting companies by growth stage, utilized firm-wide to steer sourcing and thesis work
- Diligenced high-growth Y Combinator S26 startups to deploy early-stage funding, securing investor allocation and pro-rata rights
- Coordinated firm's main-stage San Francisco Deep Tech Week showcase for physical AI startups; led outreach to magnificent seven operators and tier-1 venture firms on behalf of the Deep Tech investment team

Silk AI Shopping

May 2025 – Apr 2026

Market Research Intern

- Analyzed 13 AI commerce competitors through systematic market sizing and gap analysis, identifying \$500M+ whitespace opportunity
- Built financial and market adoption models, projecting revenue scenarios to inform seed funding strategy and investor pitch deck
- Collaborated with founder and stakeholders to synthesize user research, market trends, and competitive positioning into product roadmap
- Pitched company at Duke Fuqua I&E Startup Showcase to investors and judges; chosen as a finalist among 120+ startups

Duke Consulting Club

Jan 2025 – Present

Student Consultant

- Benchmarked DG Matrix engineering workflows to identify automation opportunities and implement AI efficiencies via use-case analysis
- Developed capital-efficient GTM strategy for Theovision's NGO and elderly-care B2B markets; sized U.S. demand across 500+ buyers
- Designed 9-month nonprofit incubator for United Way, structuring governance, milestone tracking, and cohort programming for 6-8 orgs

LEADERSHIP & ANALYTICAL EXPERIENCE

Bass Connections

Apr 2026 – Present

Technology Commercialization Researcher

- Developed custom GPT workflows to map 250+ potential applications to each Duke research technology for stakeholder validation
- Partnered with PhD researchers to define adoption thresholds and workflow-integration requirements for lab-to-market translation
- Conducted stakeholder interviews and synthesized findings into technology-specific reports to validate commercialization pathways

Alpha Phi Sorority

Nov 2025 – Present

Vice President of Finance

- Managed \$116K annual budget; implemented reforecasting process maintaining accounts receivable below 5% of total budget
